MARS GAMING

MC115 CASE

New Mars Gaming MC115 is a high performance gaming case designed for professionals. It supports high-end graphics cards, up to 400 mm, to achieve extreme performance during the game.

Its ventilation system is extremely powerful including a complete air guiding system and capacity to install up to 3 fans: the one included, a 12 cm rear fan, and two additional 9cm side fans. And, if we add the removable and washable dust filter, we get one of the cases with the best cooling.

Its full black chassis design supports up to 155mm height CPU coolers.
